

BUILDING WORLD BABYLON

(Continued from Page 3, Column 3)

lot of Babylon. The reality behind this inevitable denouncement is monolithic and beyond the reach of tampering Jewish fingers.

Who are the enemies of the world Babylon today?

Let us move from generalities to the particular. Let us seek personification. Marshal Zhukov, the Russian war hero, is one of the most malevolent foes of Babylon. So is Marshal Grechko, the Soviet Defense Minister, who wonders eagerly how a space ship carrying twelve men and a 100-megaton bomb could deal with the world Babylon.

These men are not "Communists" in the narrow sense in which the ignorant provincial bourgeoisie understand Communism. They are not interested in "the class struggle," which they recognize clearly as being under the secret control of the bankers of Babylon. They are Medes and Persians, staring at the walls of Babylon. How can these walls be stormed? How can the loot and plunder best be taken? What manner of sadism can be most pleasureably practiced against the Babylonians? These are questions alien to the Jewish intellectuals who fashion the literature and thinking of Babylon. The Jew seeks to destroy the ancient, virile lusts which move the Medes and the Persians. The Jew thinks that he has succeeded; the Jew will find out differently when the 100-megaton bomb vaporizes him, when he again feels the bayonets in his buttocks, when his enemies activate some dark new Auschwitz which already exists at a future point in time. The Jew hates the shadow of the Swastika and thinks that it represents merely a little man named Adolf; but Adolf is dead, and the shadow is still there. **Das Swas Korps**, the official organ of the Waffen S.S., is no longer printed; but now the shadow of the Swastika falls across the pages of **Pravda** and **Izvestia**. Even Jewish writers write the expressions of collective political sadism which emerge in the U.S.S.R. That is why the Soviet intelligentsia are so bitterly unhappy, why so many of them flee to the West. They cannot bear to face the fact that political sadism and reactionism represent not merely "error" but great eternal truths. (Christ said, "The Prince of the world is condemned already.")

There is no question but that the world Babylon will fall. It is destroyed by enemies, to be sure; but its really fatal defect lies in the concepts behind its design and construction. In recent decades the U.S.A. has been incorporated into the world State; we have abdicated the proud nationalism and patriotism which once made this a great nation. We have surrendered to mediocre humbugs and bores, of both the Right Wing and Left Wing, who behind the smoke screen of pretense of carrying on battle against each other, actually work hand-in-glove to enslave us to the Great Harlot, the Babylonish spirit, the "Tower of Babel" worship of human structures founded upon envy, hatred, greed, and vapid, burned-out lust. They "channelize" the masses of provincial patriots into emotional political futilities.

There is this common characteristic of all of the great Babylons of this world: The sign on the wall always says Mene, Mene, Tekel, Upharshin. Babylon is doomed by the manner of its construction. It is by its nature a temporary camp. If we swap our ancient honor and our proud nationalism of yesteryear for a place in the world Babylon, we automatically make an ultimate swap of national existence for national oblivion. It is inherent in the nature of the thing. The world state is not an ultimate form of world organization; it is a disaster in the process of happening. It will be translated quickly into ruined cities; into mounds of corpses; into the victory of Nihilism. It will claim to represent "peace" but it is the harbinger of World War III, the infallible vulture which lingers over the spot where a corpse soon will lie to be devoured.

America Beware

Israel Tsiperovitch from Odessa-Mama.

With every passing month it is getting more and more obvious WHO is at present The Great Helmsman of the American Ship of State

Leading magazines, such as **TIME** and **NEWSWEEK**, acknowledged this fact fully in their recently-published articles. The well-known political columnist, S. Alsop not only admitted that this person is the most influential man in Washington, but even gave some revealing details of his biography, apparently for opening the eyes of those who are still not aware about his true identity.

This "Helmsman" Gershko (Henry) Kissinger, is a German-born Zionist Jew, which is already bad enough because the Zionists often admit themselves, they owe their first allegiance to the State of Israel, and NOT to the nation the citizens of which they happen to be.

Still worse, this arrogant and self-assured Jew considers himself to be an "expert" on nuclear warfare and strategy.

And, — which could be catastrophic, — he preached in his books the **NECESSITY OF "PRE-EMPTIVE" NUCLEAR ATTACK** on the Soviet Union.

Kissinger's books were a "must" for the Pentagon generals. It is certain that the Soviet General Staff did not miss them too.

If you were in the place of the Kremlin leaders, would you not be deeply alarmed by the sudden elevation of this obscure Jew who is now capable to execute the plans about which he could only dream a few years ago?!

The Soviet marshals, as a rule, seldom indulge in senseless political verbiage to which the American senators have such an addiction. Therefore the recent rude warning of the Soviet Air Marshal Krilov should not be dismissed lightly, as the Jewish-dominated American press did. It was not an empty threat, but something far more serious, a kind of last warning to the American people: "Beware, — or else!"

Kissinger's reply to it was the promise of Phantom jets to Israel . . .

The Soviet High Command stands now in front of a tragic and terrible dilemma: should Gershko be permitted to press the button **FIRST**, — OR?

Don't be deceived by your press. **THE SITUATION IS MUCH MORE DANGEROUS THAN IT MAY APPEAR TO THE GENERAL PUBLIC.** Nixon was elected without Jewish help. Just to the contrary, they, "en bloc," voted for his opponent. Having no political obligations toward the Jews, Nixon could be an **AMERICAN** President in the true sense of this word. But, being a coward and opportunist, he, deliberately and shamelessly, declared himself to be an obedient "shabbas-goy" by nominating Kissinger to that most important post. This nomination was also a **DIRECT CHALLENGE** to Moscow, and increased, at least tenfold, the possibility of nuclear war. It may be said, in fact, that by this appointment Nixon re-

The influences which hold the U.S.A. in their grasp today are tools of ultimate Nihilism. They hide behind a smoke screen of pseudo-idealism generated by the intellectual frauds of the Right and the Left, but they represent at bottom forces of ultimate evil. "Come with me and see the condemnation of the Great Harlot who sits upon the many waters . . ." See the condemnation of the lying "anti-Communists," who secretly support Marxism around the world, and yearned so hard for a "Red Russia" that they financed the October Revolution. See the condemnation of the lying "Communists" who talk of proletarian revolution but are the handmaidens of international banking. See the angry angel who casts a millstone into the sea and cries, "With this violence shall that great Babylon be cast down!" Don't worry about the world state; it is a highly transient phenomenon. The time is pretty close when you should worry about your own hide when Judgment Day comes!

moved the safety pin from the nuclear bomb fuse, and it may now detonate upon the slightest impact.

It should be made clear to everybody that at this moment the "danger point" is NOT in Peking, or Moscow, but in Israel. It is the primer from which the first flash of flame may burst forth, and this flash, by chain detonation, may blow up the whole world. . .

HAVE WE NOT THE FULL RIGHT TO ASK IF THE ROBBER STATE OF JEWS IS WORTH SUCH A TERRIBLE PRICE?

You, most definitely, are NOT fighting Communism when you are giving your jet planes to Israel, as your Jewish-controlled press wishes you to believe. The Moslem World is one of the bitterest enemies of Communism, as it was amply proven in Indonesia. You arm those who were the fathers and promoters of Communism in Russia. Do you know, by the way, that your own Communist Party back in 1919 was founded by two Russian Jews, Gold and Potash? You help your enemies, — and you ruin those who could be your staunch allies. . You drive Moslems directly into Communist arms, and history will never forget and forgive this criminal imbecility.

One of your prominent Zionist Jews, Label Katz, said once such a significant — and tragic — sentence:

"Impact of Judaism on U.S. culture is so prevalent that it is a popular pastime to probe the world **THROUGH JEWISH LENSES**". **TIME**, June 4, 1965..

To save the world — and yourselves — from the impending nuclear disaster you, the American People, should get rid of those "lenses", and see the events **AS THEY ACTUALLY ARE** — and NOT as the Jews wish you to see them.

Chase out from the White House cellars the "liberal" political rats infected with Zionist Plague, remove from the political scene all those who sold their bodies and souls for Jewish gold and be **AMERICANS** instead of being Jewish pawns and slaves.

Heed Marshal Krilov's warning, and keep in mind that you are living in a country with a predominant urban population with many industrial "solar plexuses". Such nations have no chance to survive a nuclear attack without being immediately decomposed from inside. Not the armed forces, nor the number of rockets will decide the outcome of the next nuclear war, but the **STABILITY** and **DISCIPLINE** of the civil population. Tell honestly: do you have them? With all your hippies, beatniks, peaceniks, hysterical Jews and rebellious Negroes you will have such a terrible mess all over the land after the explosion of the first nuclear warheads that your will to fight will collapse at once.

Don't tempt the fate by increasing the number of "hawks" in the Kremlin! Every pro-Israel move of the Nixon Administration, inspired by his "Eminence Grise" Gershko Kissinger, brings the war closer to your own door. And if Marshal Grechko, and not Eminence Gershko, would press the fatal button **FIRST**, don't blame him too much: it would prove that he studied Kissinger's books diligently, and decided to follow his advice: **Strike First!**
